Cambelts - all 4 cylinder models £275

Manufacturer's are now advising replacing the cambelt every 4 - 5 years regardless of vehicle mileage. Cambelt failure can cause severe damage to the engine. It's simply not worth the risk to put off replacing it.

Ipod installation - from £135

An IPOD installation will enable you to fully concentrate on the road and safely control your music through your vehicle's stereo system.

Cruise control - from £122

As well as making motorway driving less tiring cruise control will help you stick to speed limits. You never know, one day it may save you 3 points on your licence.

Reverse sensors - from £270

A lot cheaper than repairing damage to bodywork - our price includes painting the sensors to exactly match the colour of your vehicle.
